

NATIONAL RESOURCES REVIEW

Australian iron ore exports set to reach a new record

Going deeper underground with new technology

Mining vehicles on the path towards the future

AN INDUSTRY LEADER

We provide large scale applications in iron ore and coal underground and above ground operations, with immediate and significant dust level reduction around material handling areas.

Our systems ensure maximum dust capture effectiveness through the control of droplet size, velocity, water consumption and spray angle based on CFD modelling techniques.

APPLICATIONS

- Stockpiles & ROM Bins
- Crushers & Conveyors
- Mining Machinery
- Ship Loaders & Unloaders
- Transfer Points & Chutes
- Construction Machinery
