AN INDUSTRY LEADER IN DUST SUPPRESSION

We provide large scale applications in iron ore and coal underground and above ground operations, with immediate and significant dust level reduction around material handling areas.

Our systems ensure maximum dust capture effectiveness through the control of droplet size, velocity, water consumption and spray angle based on CFD modelling techniques.

APPLICATIONS

- Stockpiles & ROM Bins
- Crushers & Conveyors
- Mining Machinery
- Ship Loaders & Unloaders
- Transfer Points & Chutes
- Construction Machinery
